Sub: Nomination for Woman Engineer of the Year Award - Extension of submission deadline

Dear Colleagues,

Kindly refer to the letter dated March 13, 2020 seeking nomination of deserving women engineers (between the age of 40 to 60 years) for the INAE Woman Engineer of the Year Award 2020 (one in each category of Academia, R&D and Industry). This award is aimed at recognizing outstanding contributions made by a woman engineer in any field of engineering and technology in India who may serve as role models to budding women engineering professionals in future. You may recall that the nomination deadline was set at May 15, 2020. Though we have received a decent number of nominations, the Steering Committee in its recent meeting held on 14 May 2020 readily agreed to the suggestions from the Conveners of several Sectional Committees to extent the last date for seeking nomination for the subject award.

In view of the recommendation made by the Steering Committee considering the unprecedented global crisis due to the Covid-19 pandemic and the subsequent lockdown period until May 31, 2020 announced by the Government of India, the President INAE is pleased to **extend the deadline of submission of nomination to June 15, 2020**. For further details, you may kindly refer to the INAE website www.inae.in.

We look forward to receiving more nominations for the INAE Woman Engineer of the Year Award at your earliest convenience, but not later than the revised deadline of **June 15, 2020**.

With kind regards,

Yours sincerely,

(Indranil Manna)
