

INAE & JU present

IMP2022

Innovation in Manufacturing Practices

Changes in present day manufacturing reflect advancements in supply chain, markets, customer demands and engineering design. The manufacturing sector in India is notably trailing behind the service sector's share of the GDP. Growth of manufacturing sector of our country will significantly boost the national economy. Keeping this in mind, Indian National Academy of Engineering (INAE) and Jadavpur University, Kolkata (JU) are organizing a One Day National Workshop on Innovation in Manufacturing Practices (IMP 2022) at Jadavpur University, Kolkata on 20th June, 2022 to provide a platform for engineering students and startups to compete in an All India Contest to showcase innovations in manufacturing sector.

Highlights of IMP

- * National Level Project Competition open to all Engineering students and practitioners [undergraduate, postgraduates (not PhD scholars) and startups]
- * Eligible Branches of Engineering Studies for Students: Aeronautical, Biomedical, Chemical, Civil, Computer/Information, Design, Electrical, Electronics & Communication, Industrial, Instrumentation, Material Science, Mechanical, Power, Production and other allied branches.
- * Eligible Startups: Entrepreneurs-in-Residence (EiR) and Startups with less than two years and incubated at any of the Technology Business Incubators (TBI).
- * Entries for this competition should be submitted before 15 May 2022 through the online link given below. The entries to be submitted along with a three minutes video [.mp4] of their working model to demonstrate the operation of the innovation and a write up of maximum 250 words.
- * 18 entries would be shortlisted for the final round (six each from UG, PG and Startups).
- * These selected entries would be given an opportunity to showcase their innovation through physical demonstration/presentation during the NATFOE 2022 Symposium.
- * A group/team cannot have more than three members.
- * A project of UG/PG students' as a course work may also be sent as an entry.
- * From the eighteen shortlisted entries, a national committee comprising domain experts will select six prize winners.

PRIZES

UG

1st Prize INR 40,000
2nd Prize INR 20,000

PG

1st Prize INR 40,000
2nd Prize INR 20,000

Startup

1st Prize INR 40,000
2nd Prize INR 20,000

Last Date for Form Submission: 15 May, 2022

Final: 20 June, 2022
