

Indian National Academy of Engineering

in collaboration with IIT Bombay

presents

Technology Conclave 2025

30th August 2025,  IIT Bombay

An Industry-Academia Centric Annual Event

About INAE

Established in 1987 as a Registered Society under the Societies Registration Act of 1860, the Indian National Academy of Engineering (INAE) is India's premier body of distinguished engineers and technologists. It promotes excellence in engineering, fosters innovation, and contributes to national development through thought leadership and policy inputs. INAE supports research, education, fellowships, and collaborative initiatives, and represents India at the global forum CAETS. Headquartered in New Delhi, INAE plays a vital role in bridging academia, industry, and government to solve real-world challenges.

About the Technology Conclave

The Technology Conclave is INAE's flagship event aimed at strengthening Industry-Academia collaboration to drive technological innovation and self-reliance (Atmanirbhar Bharat).

Key highlights include Expert talks by industry leaders, showcasing of Industrial innovations, sessions on sustainable engineering and policy. The conclave is aimed at Industry experts, Academia, Fellows and Members of INAE.

Technology Conclave 2025 Theme

 Sustainability of Civil Infrastructure in India

Join us for a one-day interactive brainstorming session focused on innovative solutions in the civil infrastructure domain. Discussions will span across smart cities, energy transition, circular economy, and more.

Key Topics of Focus:

- Smart Cities
- Waste Management
- Sustainability in Civil Infrastructure
- Circular economy
- Strategic Projects
- Sustainable Construction Materials
- Policy
